LOCALLY-BREWED REAL ALE CELEBRATES "THE BROTHERS ROBINSON" EXHIBITION AT THE HEATH ROBINSON MUSEUM

Available in the Heath Robinson Museum shop

The Loyal Federation of Frothfinders was founded over 100 years ago by the renowned artist, illustrator and cartoonist William Heath Robinson (1872-1944) and his two famous artist brothers Thomas and Charles, who loved to walk the lush Metroland of Pinner, Hatch End and surrounding towns...in search of a refreshing ale.

Running until 26 March, a special exhibition at the Heath Robinson Museum in Pinner showcases illustrations from all three brothers.

To accompany this exhibition, we present our first Frothfinders beer, brewed and bottled for the museum by Paradigm Brewery in Sarratt, Herts.

Paradigm Brewery beers are natural, with no added chemicals or stabilisers; brewed traditionally using the finest hops, malted barley... and a passion for proper beer. The Frothfinders ale is a smooth and well-balanced best bitter, made with five malts giving depth of character; with English hops for gentle bitterness.

Frothfinders ale is available in individual 500ml bottles and in a custom-designed presentation gift pack containing three 500ml bottles.

Frothfinders – Tasting Note

Maris Otter Malt and Spring Malt from Suffolk provides the base. Overlay some roasted malts: crystal malt adds a toffee flavour and colour, caramalt distinctive sweetness, a chocolate roasted malt a coffee flavour and gives the brown colour. Finally there is a touch of wheat for head retention. The English hops hail from Worcestershire and add the smooth and subtle bitterness.
